

UCC WI-FI

SECURE NETWORK ACCESS

Members have recently been losing their connection to the XLN Business Services secure network.

XLN have made some changes to the network today that should hopefully resolve the problem.

Members should now choose the Undercliffe Cricket Club network from the list of available networks when using Wi-Fi in the club.

You will need to put in again the password that was used to access the XLN Business Services secure network.

If you have forgotten the password then please ask the bar staff the next time you are in the club.

Otherwise please text me on 07960 571401 for the password.
